## Appendix 2 Instructions Section A – General

### 1. Foreign Account Tax Compliance Act (FATCA)

FATCA is a component of the Hiring Incentives to Restore Employment Act (the HIRE Act), which was enacted by the U.S. Congress and signed into law on March 18, 2010. FATCA's objective is to reduce tax evasion by U.S. individuals receiving income from financial assets held outside the United States. FATCA has worldwide impact. Its provisions are designed with incentives for Foreign Financial Institutions (FFIs) to provide information to the U.S. Internal Revenue Service (IRS) on financial accounts held by U.S. persons. While foreign institutions are outside of U.S. jurisdiction and have no formal reporting obligation to the U.S., they will be incentivised to comply in order to avoid a 30% withholding tax on payments received from sources within the U.S. levied on non-compliant individuals or entities.

FATCA compliance requires that an FFI, including foreign subsidiaries of U.S.-based organizations, takes steps to:

- Conduct Due Diligence procedures on new and pre-existing accounts to classify account holders or investors as either U.S. or non-U.S.
- Report account information to the IRS or, if under a Model I IGA, to the local tax authorities
- Potentially withhold 30% tax on certain payments to individuals and entities that fail to comply.

### 2. Intergovernmental Agreements (IGA)

The U.S. Treasury published two Model Intergovernmental Agreements (Model 1 and Model 2 IGAs) for implementing the broad-ranging provisions of FATCA globally. Non-U.S. countries may enter into one of these agreements with the U.S. and following this, introduce local regulations to implement the agreement. Under a Model 1 IGA, a Foreign Financial Institution (FFI) in a respective partner country is required to report U.S.-owned account information directly to their local tax authority, rather than to the Internal Revenue Service (IRS). The local authority would then share that information with the IRS. However, a Model 2 IGA requires FFIs to report certain information directly to the IRS.

### 3. Common Reporting Standard (CRS)

On 20 July, 2013, the G20 leaders endorsed the OECD proposals for a global model of automatic information exchange as the expected new standard on information exchange. This directive was carried out on 13 February, 2014, when the OECD released the Common Reporting Standard ("CRS") and model Competent Authority Agreement ("CAA"). On 15 July, 2014, the Council of the OECD published its detailed commentary on both the CRS and Model CAA.

In order to promote adoption of the Common Reporting Standard within the European Union, a revised Directive on Administrative Cooperation ("DAC") was published on 09 December, 2014 requiring EU Member States to begin the automatic exchange of information under the revised DAC no later than end of September 2017, which will be in line with other OECD "Earlier Adopter" countries. Per the DAC, the deadline for Member States to adopt local legislation will be 31 December, 2015, with the revised DAC "go-live" date commencing on 1 January, 2016. As of June 17, 2015, more than 90 countries and jurisdictions have signed up for the CRS, including at least 50 who have committed to be a part of the early adopter group, which phases in beginning 01 January, 2016. It is expected that more countries will opt to implement the standard as the initial go-live date approaches.

CRS introduces requirements on top of other global and local implementation programs (e.g. FATCA, EUSD, QI) aiming at a uniform global standard of information exchange. Both the Model CAA and CRS each have a foundation that is substantially similar to that of the FATCA Intergovernmental Agreements (IGAs), with subtle differences imposed by the OECD and influenced through local law. Just as with FATCA, the CRS therefore impose obligations on Financial Institutions resident in those territories to report information on financial accounts held by foreign tax residents to the local tax authorities.

### 4. Legal Disclaimer

The above tax regulations require Deutsche Bank to collect certain information about each account holder's tax residence. Please note that Deutsche Bank cannot provide you with tax advice, including tax residence.

If you are unsure about how to complete this form, please consult your tax adviser.

It is the responsibility of the Account Holder to ensure that the information provided is complete and accurate and to provide Deutsche Bank with any additional documentation, information or replacement forms when requested or required.

Deutsche Bank assumes no responsibility for the independent verification of any information provided on this Form and will rely on such information as being complete and accurate in all material respects. Deutsche Bank is also under no obligation to accept a form if we have either reason to know, believe or have actual knowledge that the information provided in the form is invalid or incorrect.

The Deutsche Bank entity requesting this form will operate under the regulations applicable to its local tax jurisdiction or country where the person is located.

### 5. Who should complete this form?

This form is to be completed by all account holders. The person may be the account holder or acting on behalf of other clients/account holders. Please do not use this form for entity account holders. Instead, the Self Certification Form for Entity Clients should be used.

Please contact your Deutsche Bank Relationship Manager for blank copies of this form or for the Self Certification Form for Individual Clients.

### 6. Expiration of the Self-Certification

Generally, the self certification will remain valid indefinitely unless there is a change in circumstances, in which case you are required to notify Deutsche Bank within 30 days of the change in circumstances and provide us with an updated self certification.

### 7. Consequences of non-provision of a valid form

Deutsche Bank is required to validate the information provided in this form against other information that we hold about the account holder. If, for any reason, conflicting information is identified, then the form may be rejected. Deutsche Bank may need to request additional supporting information as necessary under the rules.

In the case where the discrepancies cannot be resolved, the below are some possible consequences:

- The person can be treated as a Reportable account and as a consequence account holder information, account balances and payments may be reported by Deutsche Bank to the relevant local tax authority for onward exchange of information to the tax authority where the person is tax resident.
